

TRAINING AT THE SPEED OF LIFE INSTRUCTOR CERTIFICATION

Time: 8:00 am to 5:00 pm Daily* (8:00 am to 1:00 pm on Friday)

**Training on Wednesday and Thursday may run slightly past 5:00 pm due to scenario training*

This five-day course covers all aspects of Reality Based Training. Instructed by Kenneth Murray, the original co-founder of SIMUNITION® and author of the critically acclaimed book *Training at the Speed of Life – the Definitive Textbook for Police and Military Reality Based Training*, this class provides instructors with a highly advanced template for running any type of Reality Based Training independent of the technologies being used.

Participants in this class receive five days of both theory and hands on experiential learning in setting up safe and effective training programs involving the various types of Reality Based Training modalities. Those who have attended in the past have gone on to create training programs that have significantly reduced training costs while improving the quality AND quantity of training within their agencies. It also addresses many of the issues that agencies are facing these days within the various aspects of encounters with members of their communities. The Training at the Speed of Life class teaches participants functional use of setting up training programs that are directed more towards the needs of the individual officer as opposed to the assembly line approach that fails to address specific training needs of each officer. The Seven Survivals model explains that any training program must transcend many of the typical training methodologies, and teach participants how to set up experiential exercises that will help to ensure that encounters address optimized performance Physically, Legally (both criminal and civil), Socially, Professionally, Psychologically/Emotionally, Spiritually/Ethically, and Financially. Failure in any one of these critical areas can prove catastrophic personally, organizationally and societally. This program teaches trainers to ensure any scenario based training is performed and facilitated to a conclusion that is "six o'clock news ready", meaning that if the scenario had been an actual situation, that the video of that event would be the one the agency and the community they serve would be proud to see it replayed on television or in a court of law.

This school certifies the attendees as instructors in the use of all brands of marking cartridges, protective equipment, inert training products, AirSoft, video simulation systems and more.

This program is open to trainers involved in all facets of law enforcement training including Field Training Officers, Firearms Instructors, Defensive Tactics Instructors, and other instructors involved with patrol, SWAT or specialized law enforcement training. A military version of this class is also available.

Equipment Requirements:

- Duty Equipment (Including TASER if carried)
- Long-Sleeved Uniform or Coveralls
- Body Armor and Eye Protection
- Writing Instruments

Students are asked to bring 50 rounds of Secure Blanks (SIMUNITION) or ATK Force on Force Blanks. Marking cartridges will be provided. **Students should also bring their dedicated marking cartridge firearm and/or conversion kit for their duty weapon.**

Participants should also bring any training weapons or conversion kits necessary to fire the training munitions to be utilized in the training program. Depending on where the class is held, there might be a limited number of training weapons available for use for those who do not have the conversion kits. Note: UTM is currently not permitted as for use in this program due to current projectile dangers. Basic protective gear including Face/Head, Throat, Groin and Gloves will be provided for scenario portions.
