This five-day course covers all aspects of Reality Based Training. Instructed by Kenneth Murray, the original co-founder of SIMUNITION® and author of the critically acclaimed book *Training at the Speed of Life – the Definitive Textbook for Police and Military Reality Based Training*, this class provides instructors with a highly advanced template for running any type of Reality Based Training independent of the technologies being used.

Participants in this class receive five days of both theory and hands on experiential learning in setting up safe and effective training programs involving the various types of Reality Based Training modalities. Those who have attended in the past have gone on to create training programs that have significantly reduced training costs while improving the quality AND quantity of training within their agencies.

This school certifies the attendees as instructors in the use of all brands of marking cartridges, protective equipment, inert training products, AirSoft, video simulation systems and more.

The normal cost of this program to the attendee is \$695.00 per person, but for Cook County departments and agencies **TUITION COSTS ARE FULLY FUNDED BY DHSEM.**
